

# Jonathan's Portfolio

The portfolio will showcase various websites I've worked on.

This website will showcase work I've done for clients as well as a main contact point for any future clients. This portfolio will also act as a playground for any new web technologies I want to try out.

Client

Interested in hiring me for a contract job.

Designer

Finds out about me through dribbble or some other medium

Recruiter

Likes my work enough to hire me full time
